

Go Store It Self Storage Opens Adaptive Reuse Project in Naples, Florida

Naples, Fla. (Dec. 11, 2023) — Go Store It Self Storage, a leader in high-quality storage solutions, has opened a state-of-the-art facility in Naples, Florida.

Located at 220 Basik Drive, the 107,194-square-foot building is the adaptive reuse of the former Big Cypress Marketplace. Go Store It and General Contractor Liberty Solutions transformed the space into a modern, secure storage to meet the demands of the fast-growing market.

It is near Collier Seminole State Park and Publix Super Market at the Shoppes at Fiddler's Creek.

"Go Store It saw a need in the Naples MSA for self-storage, and we're proud to provide a modern, climate-controlled facility that will benefit both locals and visitors," said Chief Operating Officer Beau Agnello. "With very little storage in the Lely Resort area, we aim to fill a gap to service the Naples-Marco market. Located off Tamiami Trail, we're proud that our property will benefit local businesses and the community searching for storage."

The newly renovated facility boasts 503 secure, climate-controlled storage units, offering residents and businesses in Marco Island, South Naples, Goodland, Lely Resort, Everglades City and surrounding areas convenient and reliable storage solutions. Features include secure electronic access and ClickandStor™ 24/7 Move-In.
